

Eneo Eye Concentrator

Instructions

Eneo Eye Concentrator

- Apply the Eneo Eye Concentrator on to dry Skin. While applying mild pressure, glide the Eneo Eye Concentrator across the skin in small circular motions. Treat the area for four minutes. You may apply an eye serum prior to the treatment.
- After completing the four minute treatment, apply a moisturizer of choice on to the treated areas.
- Use three times a week for the first month and then transition to at least twice per month for maintenance.
